

Traffic and
Disappearance
of local shops
and small
businesses

Consequences

- Traffic Pollution
- The air will be polluted
- The more cars on the road, the chance of car accidents is higher

- We will have less supplies
- Many people will lose their jobs

Solutions

- Broader use of public transports and electrical buses;
 - Improvement of transporting services;
 - Increase the number of traffic roundabout;
 - Grant informations about traffic in real time (through GPS on mobile);
 - Building cycle lanes to school (from the nearby municipalities);
 - More safety for pedestrians.
-
- Reduction in tax to promote smal enterprises;
 - Support local shops buying their products.
