THE VADEMECUM OF SO ECO GREEN BEST PRACTICES

2012-2014

Spain

- Different teams of students sweep the playground after recess and separate;
- Change of taps of water with a timer to decrease water consumption;
- Light and thermal insulation in all classrooms.

Lithuania

- A stokehold, which uses biological fuel, has been built;
- Spring cleaning action “Let’s do it”;
- Modernizing the school heating system to save energy needed for heating the school building.

Finland

- Intelligent dimmable street lights;
- Fuel made of butanol and leftover food;
- Sustainable development in food services in schools.

Hungary

- Making board games from recycled materials/waste;
- Small garden for spices;
- Stress relief yoga for teachers.

Italy

- Improvement in social services: increasing the activities of Time Bank
- School involvement in the fight against eco-mafie;
- Students’ cooperation with the Youth Council to implement the project “Art not Vandalism” aimed at painting the market walls with graffiti.
