What did you like best? Why?

- Meeting and getting to know new people

- Meeting new people.
- People, views, food, weather. Almost everything, it was so awesome.
- Absolutely people, because the whole idea is getting new contacts.
- Meeting absolutely wonderful people all around the countries, sharing own dreams and personality with them and just having good time with students and teachers. The hole project was prepared very well, because most of all activities were interesting and I think every person liked them very much. For example teachers were organized all the flight bookings and contacts with host families, and also in Finland Merilä-day and ice-swimming were absolutely memorable activities! I like also the hole idea, that Finnish school, Pietarsaaren lukio and all other schools included this project can be contacted with each other!
- The chance to meet people of the same age from different countries. I have now friends from all over Europe -great! Now i understand many cultural differencies better, when i know how youngs live around Europe.
- People. All the people I met was the best thing. I made so many friends who I still over a year later talk to.
- Meeting new people and beeing in touch with other cultures because it's interesting to see how different things are. And the whole project 'cause without this kind of projects it's very hard to be in touch with other cultures when you are only a student and don't have much money..

What would you like improve?

- The visits could be longer
- nothing
- Maybe the organizing of the meetings. Sometimes nobody knew what we were suppose to do...
- I don't know, maybe some tasks.
- I don't remember any grievance.
- If have to say something, I say more activities -something different than have been. And maybe some other fallbacks/plans if there is very cold outside in Finland. I think everything has gone so well, so there is nothing to improve to my mind.
- The powerpoints we made before the meetings had quite different subjects in different countries. Also the theme could have been more handled.
- I don't know, maybe the visits could take few days longer...I don't have anything important in my mind right now.
- All I can think about is that trips could last longer. But that wouldn't be reasonable, unfortunately.
- It was great like it was
- The things witch bring us youngs together
- I think that the expenses could be managed better.
- Nothing
- My vocabulary.
- Evrything is good
- should be interesting programs
- The organization in the meetings.
- Everything was perfectly right!
- The number of the people involved in the project
- I would like to increase the duration of the project, because a few more days would allow us to know better.
- The student mobility.
- Tasks (should be a bit more practical) and tipical events
- I like to improve my English
- The meeting were a bit boring and not very interesting. I would like to improve it.
- I would like to spend more days in the other country in this project, 3 days is not enough.
- More travels.

- We could improve tasks of this project.
- Everything has been fine
- I would like to meet people of more countries.
- Maybe the time we spend doing it it's too short.
- I think that all have been ok.
- The meetings that they are a little bit boring.
- Another countries to visit would be more interesant,
- I wouldn't improve anything
- I would improve the visits to places. As I said, I think this part is what most people like the most so it could be perfect to see as much new places as it's possible.
